SKILLS

LANGUAGES
Python, Java, C++, JavaScript, SQL

BACKEND
Django, Django REST Framework, Django ORM, REST APIs, JWT Authentication, Authorization & Permissions, Database Design, Migrations, Backend Architecture

DATABASES
PostgreSQL, MongoDB, SQLite, SQL

INFRASTRUCTURE
Redis, Celery, Docker, Background Jobs, Caching, Signals, CI/CD

TOOLS
Swagger/OpenAPI, Postman, Git, GitHub

DEPLOYMENT
Render, Railway, Vercel, AWS

AI / ML
PyTorch, Scikit-Learn, Hugging Face, NLP, OCR, Multimodal AI

GENERATIVE AI
OpenAI, Gemini, Claude, LangChain, LLMs, RAG, AI Agents, Prompt Engineering, Embeddings, Vector Databases

EXPERIENCE

MJCORP ASIA PVT LTD | Full Stack Intern
Jul 2026 – Present | New Delhi, India

- Built Earn By Way, an AI-powered freelance marketplace with a secure escrow platform connecting clients and businesses with verified freelance talent.

PROJECTS

WorkFlowX — Project Management Backend

DJANGO, DJANGO REST FRAMEWORK, POSTGRESQL, REDIS, CELERY, JWT, DOCKER, SWAGGER/OPENAPI, GITHUB, RENDER/RAILWAY

- Designed a relational backend architecture (User → Organization → Project → Board → Task → Comment) with Django ORM and migrations, and built REST APIs with Django REST Framework covering organizations, boards, tasks, member assignment, comments, and file attachments.
- Implemented JWT authentication with refresh tokens, role-based permissions/ authorization, and Django signals to drive notification and workflow events.
- Added Redis caching and Celery background jobs for asynchronous notification workflows, wrote tests, documented all endpoints with Swagger/OpenAPI, and containerized and deployed the app with Docker and CI/CD to Render/Railway.

Mentra.AI — AI Career Intelligence Platform

REACT, NODE.JS, EXPRESS, MONGODB, GEMINI, OPENAI, LANGCHAIN, RAG

- Built an AI career platform that analyzes a user's skills against target roles to generate personalized roadmaps, learning missions, and interview preparation content.
- Developed a Node.js/Express backend integrated with MongoDB, and implemented RAG pipelines with embeddings and a vector database to ground LLM responses (Gemini, OpenAI) in relevant career data.
- Built AI agents with prompt engineering and LangChain to orchestrate multi-step skill-gap analysis and roadmap generation.

RouteIQ — AI-Powered Transit Planner

REACT, VITE, TAILWIND CSS, NODE.JS, EXPRESS, LEAFLET, OPENSTREETMAP, GTFS, GEMINI

- Built a Node.js/Express backend that integrates GTFS data and real-time transit feeds to power route planning, alternative routes, and live bus tracking.
- Implemented Server-Sent Events for real-time journey monitoring and live alerts, and integrated Gemini for AI-generated travel recommendations.
- Built interactive maps with Leaflet and OpenStreetMap for live route visualization and tracking.

ACHIEVEMENTS & LEADERSHIP

- Co-Lead, AI/ML — GeekRoom
- 3rd Place — ARTPARK ProtoDash Challenge, IISc Bangalore
- Winner — Neural.Net (IIIT Hyderabad)
- Semi-Finalist — ET Hackathon
- Phase II / Finalist — RBI HaRBInger 2026
- Kaggle Certification — Intermediate Machine Learning
- IBM Certification — Python for Data Science, AI & Development
- Udemy Certification — Python Django
